Full instructions have been issued from Scotland Yard, and the police are prepared for the mob. Trouble is expected, for the crowd is maddened by their treatment yesterday, when they were ridden down by the mounted police, and then locked up in Hyde Park. An angrier procession never issued from the Marble Gate than came out last evening, when the police released the rioters. Loud and deep were the imprecations hurled at the police, and threats of vengeance were freely uttered.

It is feared that some of this bad blood must be let out to-day. But the police are mustering in great force, and are confident they can dispose of the mob in short order with the use of nothing but their batons. Full instructions have been issued from

KATKOFF AND BOULANGER.

The Editor Advised the General to Push on in the Direction of War.

[SPECIAL CABLE TO THE EVENING WORLD.] London, Oct. 19 .- The Paris correspondent of the Daily Chronicle learns that the late M. Katkoff and Gen. Boulanger were in close communication. The former is even said to have promised aid to the General to launch himself as Dictator. Katkoff was employed by Gen. Bogdanovitch as an intermediary, and advised Boulanger to pay scant attention to the Russian and to pay scant attention to the Russian and German Embassies, but to push on in the direction of war. Gen. Schweinitz, the German Ambassador at St. Petersburg, managed to intercept one of Katkoff's letters, and conveyed it to Emperor William. The Emperor complained to the Czar, who became greatly incensed when he heard of the affair, and declared that he would never admit Katkoff to his presence again. This disgrace hastened Katkoff's death.

The Presidential Party at Atlanta - Complaints of Iundequate Accommodations, [SPECIAL TO THE EVENING WORLD.]

ATLANTA, Ga., Oct. 19. - " Cleveland veather" has taken a back seat and the elements appear to be in thorough sympathy with the crowds of visitors who have for the past twenty-four hours been struggling for food and shelter.

Many women and children from the outlying districts, who came to the city to witness the festivities, have suffered greatly in this respect.

The visiting soldiery invited to the city have been badly treated. No provisions whatever were made for their accommodation, and since their arrival they have been skirmishing for themselves, and are, naturally, very indignant. Late last night a number of companies determined not participate in the programme arranged for

Misses Bissell were going to witness the great sham fight, which will be the great feature of the day.

The Presidential party had much difficulty in leaving Machinery Hall yesterday afternoon, the crowd being almost impenetrable. The public reception at the Exposition ground was a pleasant affair of its kind, no attempt being made to shake the hands of the passers-by, and the whole proceeding being over in three-quarters of an hour. This ended the proceedings at the Fair grounds, whence the visitors were conducted to the club-house of the Gentlemen's Driving Club, where an elegant lunch was served under the supervision of the wives of the members. From this point the party went to their rooms at the hotel and remained there until 4 o'clock.

The gentlemen of the party dined with Gov. Gordon this evening. Among the guests invited to meet them were Gov. Perry, of Florida; Gov. Richardson, of South Carolina; Senators Brown and Colquit; Gen. Jackson, of Louisville; President Davidson, of the Georgia Senate; Speaker Little, of the House of Representatives; Gen. Pierce, M. B. Young and Mr. Henry W. Grady. At the same hour Mrs. Cleveland and Mrs. Vilas were entertained at dinner by Mrs. R. H. Porter, some of the first society ladies of Atlanta being invited to meet them. After dinner they received a large number of the ladies of Atlanta at the Porter mansion. In the evening the entire party attended a card reception by the Capital City Club from 9 till 12 o'clock. About 900 invitations were issued.

Will Criminal Action be Begun Against Jay Gould and Russell Sage ?

The story of the suit which has been brought against Jay Gould and Russell Sage by foreign bondholders of the Kansas Pacific Railroad to recover a large sum of money alleged to have been illegally converted by the defendants as trustees of the Denver Pacific Trust, which was published this morning, was the subject of general comment and discussion in downtown business circles to-day. It is asserted that the amount of the liability of these serted that the amount of the liability of these two gentlemen to the trust fund is in the neighborhood of \$3,000,000, and that steps will be taken to have an accounting of the whole amount and compel them to disgorge. SHARP MUST STAY IN JAIL. Arguments in the Appeal To-Day Postponed Until Oct. 27.

[SPECIAL TO THE EVENING WORLD.] ALBANY, N. Y., Oct. 19 .- De Lancey Nicoll, Lawyer Stickney and Bourke Cockran were on hand when the Court of Appeals opened

in the matter of Sharp's appeal. Stating that ex-Judge Comstock, who had been secured to present the case for the people, had not had sufficient time to prepare simself sufficiently and familiarize himself with the case, Mr. Nicoll asked for a postponement for the argument.

As the court takes a recess next Friday for three weeks, and it is not probable that a decision could be reached before the adjournment, he felt warranted in asking for the postponement.

Mr. Stickney urged that the appeal be argued at the earliest day possible, for the continued confinement of Mr. Sharp in jail might result in his death. Mr. Sharp is much weaker than a few weeks ago, and delay might render his condition much worse. Chief-Judge Ruger considered that the

case was one that could be justly postponed to a date previous to the recess, as in either event the decision could not be handed down until after the recess expired. He therefore set the case down for argument on Thursday Oct. 27.

The defense will undoubtedly carry the case to the Supreme Court of the United States in the event of an unfavorable de cision of the Court of Appeals. The chief question which will be raised in the Supreme Court will be that of constitutional privilege. the defense contending that the admission of Sharp's incriminating testimony before the Senate committee, on his trial for bribery, was directly in opposition to the provisions of the Constitution of the United States.

The party who sent his money to Hammond received in return a small stick of crystal mucilage, with a recipe for making the same, the whole being worth, Hammond claims, \$100 or \$200. The defense to the complaint is that there is nothing fraudulent about the scheme. Hammond is about eighteen years of age and has been doing a large business.

DENIALS THAT ANYBODY WANTS TO GET HER OUT OF THE WAY.

Her Transfer From One Episcopal Institu tion to Another Said to Be Entirely Regular, Notwithstanding Talk-Why She Left Christ's Hospital-A Probability That She Will Shortly be Sent to Scotland.

So long as pretty Jessie McCorkle remains an inmate of the House of Mercy a Damoclesian sword will hang over the head of some very respectable people in Jersey City, and when she leaves that institution the sword may drop.

Jessie is an attractive-looking brunette of

eighteen years. She was born in this city of respectable parents, and is now an orphan. About two and a half years ago she came under the notice of Sister Brown, the Mother Superior of St. Phoebe's Mission in Brooklyn, and was admitted to that institution. After remaining in charge of the sisters for several months a

situation was found for the girl as nurse in Christ's Hospital on Jersey City Heights.

It is alleged that while she was in that institution one of the physicians took advantage of the girl's youth and unprotected condition, and that she made formal complaint to the authorities against him. It is alleged that persistent efforts have been made to get the girl out of the way. Two days after she left the clergyman's house, and while staying at the house of a friend, she was sought out by the police—according to the story told by her friends—and induced to go back to St. Phenbe's mission. From there she was transferred to the House of Mercy, an Episcopalian institution at the foot of West Eighty-sixth street, in this city. She was received there at the request of a clergyman without a commitment. It is said to be against the rules of the institution to admit persons without a proper ment.
